

Minimum Qualifications for Shiawassee County Certified Onsite Water Supply or Sewage Disposal System Inspectors

The Shiawassee County Health Department - Environmental Health Division (SCHD) has established the following minimum requirements for obtaining certification as an inspector of onsite water supply or sewage disposal systems under the *Inspection of Onsite Water and Sewage Disposal Systems at Time of Property Transfer Regulation*:

- I. Minimum of a high school education or equivalent.

- II. Knowledge of onsite water supply and/or sewage disposal systems as demonstrated by:
 - a) Personal interview with Director of Environmental Health. Applicants will be evaluated as to specific work experience and knowledge related to construction practices and operational standards of onsite water supply and/or sewage disposal systems.

 - b) Passing a brief screening exam that will test applicants on their technical knowledge of onsite sewage disposal and/or water supply. This screening test will help assure compliance with Section 3.6 of the regulation, which states, "Prospective inspectors must demonstrate knowledge of construction practices, operational standards as well as the causes and indicators of OWSDS failures."

The following point system will be used to evaluate applicants' technical knowledge, where a total of 80 points or more is considered satisfactory. Individuals that do not score 80 points may satisfy the requirement by subsequently completing Qualification #IV:

Credentials:

Registered Well Driller (Applies to well insp. only)	60 points
State Certified Inspector (Applies to well insp. only)	60 points
Certified Septic Installer (Applies to septic insp. only)	60 points
Registered Sanitarian; Professional Engineer	80 points

Experience:

Over five years documented experience	40 points
3-5 years documented experience	20 points
Less than three years documented experience	0 points

Screening test:

90 – 100% correct	50 points
80 – 89% correct	40 points
70 – 79% correct	30 points

III. After demonstrating technical knowledge, candidates must successfully complete a core training course and exam which will include:

Requirements of the regulation: County procedures to implement the regulation; Water supply inspection protocol; Sewage system inspection protocol.

IV. Those applicants who do not receive at least 80 points in the evaluation of technical knowledge may demonstrate that proficiency by subsequent completion of one of the following:

- a) Inspector certification in the appropriate field by the National Sanitation Foundation (NSF)
- b) A course or certification in onsite water supply or sewage disposal that is accredited by the Michigan Department of Natural Resources and Environment
- c) Technical training, demonstrated by passing an exam, administered by Shiawassee County Health Department - Environmental Health Division.
